(<160 chars) Meta Description: Inbound Marketing Service helps entrepreneurs, non-profits, and clean technology construct/build inbound marketing services until marketing departments become profit generators

H1: Start Right Here

Let's talk about you...

{Video player}

You probably came here for one of three reasons. To help you navigate through our website quickly and efficiently, I've created the **Getting Started Video Guide** above and the few comments below.

One reason you are here might be you found Inbound Marketing Service while doing a search. If so, then I suggest starting with our [Inbound Blog](#). Do a simple search at the top of the page or skim through our recent posts.

Another reason might be you were referred by a friend or found us "out there" socially. In that case, I suggest starting with the [About Us](#) page. Knowing the **BIG WHY** driving our site and our "[Profit Center Marketing](#)" strategies will help you decide if spending any of your valuable time here is worthwhile.

Yet another reason might be you are looking for an [inbound marketing service](#). Possibly, you seek;

- a marketing strategy that earns excessive revenue so it becomes a profit center,
- an approach that leverages educational content and consulting to drive sales, or
- efficient ways to build project teams that slash thousands from your marketing expenses.

{Daniel Image (?)}

In that case the [Services](#) page will be most helpful. Or, you might just want to [Subscribe](#) to the email list. That way you can learn how Inbound Marketing Service will help you from the convenience of your inbox . . . and unsubscribe anytime you wish.

Regardless of why you arrived here . . . **Welcome.**

And I hope you find something helpful, useful, and wise.
